LS-EXT-DECO-EMB-49*27

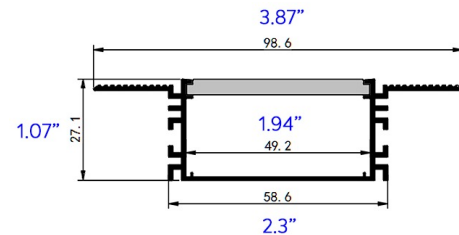

Description

This is a big bendable led profile built for commercial places and large place lighting designs. This EMB-49*27 shape bendable led aluminum profile has a capacious interior, with a inner width of up to 45.6mm (1.8inch) to accommodate LED strip lighting. This provides you with a powerful light output. And the included silicone or PC light cover results in a bright and even lighting effect. *If you choose the silicone cover, it can be a continuous uncut strip, please make a note when ordering. Default cut to your order lengths.*

C-bend aluminum profile is ideal for lighting designs on arched facades. Its curved nature allows you to easily create streamlined lighting profiles. Once installed, the EMB-49*27 shape bendable aluminium led profile produces a 50mm (2inch) wide light, with excellent illumination.

The inline mounting method makes the EMB-49*27 profile flush with the wall as a whole. This design is aesthetical and robust. Minimum bend diameter is one meter (3.28ft).
